STEEL STOCK STILL THE MAIN FEATURE FRICES OF METALS IN NEW YORK MARKET

Makes New Record Price, but 3 Fails to Carry the General List Up.

SUSPICION PREVALENT THAT RISE IS ABNORMAL

Bank Statement Shows More Than the Anticipated Decrease in Cash.

NEW YORK, Oct. 2.—United States Sized continued to hold the center of attention in today's market, but its making of further new record prices making of further new record prices did not carry the whole market upward with it. Expectation of a poor bank statement had some restraining force on the general movement, but the movement in United States Steel itself gaused some feeling of distrust. There is growing conjecture of some special development in prospect aside from the prosperous trade conditions to account for the rapid approach of this 3 per cent industrial dividend stock to par.

The conjecture evidently aims to adjust itself to the high price of both the preferred and common stocks and the contrary tendency in the price of the company's sinking fund bonds, which have shown some decline while the stocks were breaking previous rec-

he stocks were breaking previous re-rels. A distribution in the form of a tens out of the capitalization of the sary plant of the corporation was a gyorite form of speculative surmise oncerning Steel, a surmise which had no official countenance to back it o efficial countenance to back it tchison also made a new high record ith the approach of the dividend meetng. There were other points of trength in the list, including the new-listed Pacific Coast Telephone stocks. London shipped large amounts of old to Egypt and fears of dearer noncy affected the tone of the London leak maket.

London shipped large amounts of gold to Egypt and fears of dearer money affected the tone of the London stock market. With no loan market on Saturday, the stitle of the call money market here was not disclosed. The insuk statement disclosed a much heavier cash decrease than previous estimates had indicated, the actual figures reaching a shvinkage of \$12,789, 000 from last week. The clearing loans of \$7,236,900 by the averages and \$16,186,300 by the actual showing. The increase of \$11,636,700 in the average loans reported by institutions outside the clearing house, including the trust. Bonds were heavy. Total sales, par value, \$2,504,000.

United States honds were unchanged on call for the week.

Shorts Bid Up Price Late in the Day: The Grains Are Strong.

CHICAGO. Oct. 2.—Shorts bid wheat up to late today and the market closed steady. Trading was listless the greater part of the day. Sentiment was inclined to be builtsh during the first half because of southwestern weather conditions, which were extremely favorable for the seeding of the winter crop, and because of continued liberal northwestern receipts. December's range was between \$914.996c and \$1.002. The market closed almost at the top, with December at \$1.002. Inc.

Notwithstanding a break of 13c in cash corn, the options market ralled sharply during the final hour and closed at net gains of \$403c.

After considerable early "short" selling, oats ralled and closed firm, \$605c.

Frovisions were strong nearly all day. Prices at the close were unchanged to 175c higher.

Tribune Want Ads.

Clearing House Statement. NEW YORK, Oct. 2.—The statement of clearing house banks for the week shows that the banks hold \$4.631.675 more than the requirements of the 25 per cent reserve rule. This is a decrease of \$5.185.75 in the proportionate cash reserve as compared with last week.

The statement follows:

The statement follows:

Loans \$1,309,708,200 \$7,235,290
Deposits 1,327,406,500 \$1,245,400
Deposits 1,555,200 \$4,400
Circulation 51,555,200 \$4,400
Logal tenders 69,522,600 2,338,300
Specile 207,429,700 6,883,290
Reserve 336,542,300 9,222,100
Reserve 6336,542,300 9,222,100
Reserve required 321,851,825 5,215,800
Surplus 4,591,875 5,185,750
Ex-U S deposits 5,102,325 5,216,800
The percentage of actual reserve of the clearing house banks today was 25,15.
The statement of banks and trust companies of Greater New York, not reporting to the clearing house shows that those institutions have aggregate deposits of \$1,367,197,600; total cash on hand \$154,023,400, and loans amounting to \$1,238,473,200
The Financier will say:
Apparently through a contraction of bank loans, which was effected by the transfer of the trust companies during the week, the bank statement was slightly more favorable than was indicated by the early estimates. The cash loss was expected to be as great as seven millions owing to transfers to Canada, to San Francisco for Japan and to the interior for the crops.

While the actual cash decrease was

Francisco for Japan and to the Interior for the crops.

While the actual cash decrease was upward of twelve and three-quarter nillions, the required reserve against deposits was reduced, chiefly through a transfer of the greater part of the loans to the trust companies, so that the actual surplus of the banks decreased only \$5,429,175 to \$1,827,827, computed on the basis of deposits, less those of \$1,870,299 public funds, the surplus is \$2,045,125. The above noted low bank reserve was chiefly due to the coincidence of the distribution beginning with the end of the week, of October interest and dividends aggregating \$180,000,000; such distribution will probably be completed in the current week, favorably influencing the statement.

Imports and Exports.

Imports and Exports.

NEW YORK, Oct 2.—Imports of merchandise and dry goods at the port of New York for the week ending September 25 were valued at \$17,916,518.

Imports of specie for the port of New York for the week ending today were \$13,999 in silved and \$103,725 gold.

Exports of specie from the port of New York for the week ending today were \$895,005 in silver and \$200,250 in gold.

Bullion for Egypt.

LONDON, Oct. 2.—Buillon amounting to £639,000 was withdrawn from the Bank of England today for shipment to Egypt.

Is the Oldest and Only Reliable Scientific Specialist in Sait Lake City. IF ALL YOU WHO ARE IN NEED OF A SPECIALIST WILL CALL ON ME FIRST YOU WILL NOT HAVE SO MANY DOCTOR BILLS TO PAY.

Salt Lake Microscopic Medical Institute DR. C. W. HIGGINS, M. D., Mgr. and Prop.

28 West Third South Street, Rooms 1, 2 and 3 Thirty-seven Years in Salt Lake

After forty-five years' study in Nature and her laws along special lines, my superior advantages and ability go without saying, and I unhestitatingly declare, and my unparalelled record as a successful specialist in private diseases of men backs up my claim, that more men have been cured by me of VARICOCELE, HYDROCELE, NERVO-SEXUAL DEBILITY, BLOOD POISON and REFLEX DISORDERS within the last thirty-five years than by any twenty specialists in the United States combined. This fact is self-evident and indisputable, and, with my rates more reasonable and treatment more successful, you do wrong to experiment with concerns whose methods are being frequently changed, and whose doctors are the scrapings together of transient and defunct concerns.

Courtesy demands that we mention no names in a newspaper but if you come to my office I can furnish some valuable information with the proofs so conclusive that you will not regard them as selfish arguments.

NERVO-SEXUAL DEBILITY CURED

Nervo-Sexual debility is a term which I use to designate a decline of power in the general system, and also a loss of certain special functions and powers. No matter what the cause, it is always necessary in such cases to correct defects so as to supply the true elements of lost force.

This is the keynote of Nervous Debility, Seminal Weakness, Premature Decline, Lost Power and other weaknesses, all included under the sweeping term, "Nervo-Sexual Debility."

The cure of these infirmities implies the restoration of tone in every organ of the body and the renewal of the nerve impulse force which governs and controlls all organs. I solved this problem a few years ago by study along the line of elemistry of the human body, and my discovery was that of means by which I can revitalize the powers of the organism so as to cure Nervo-Sexual Debility in any of its forms or stages of development. In brief, I enable the process of Nature to remove the waste tissue and supply new; with the elements which are added to the system go new forces that establish and maintain the natural powers of the body. Thus I cure Nervo-Sexual debility to stay cured.

VARICOCELE AND ITS REMEDY

Scrotal Variencele has been described as a creeping disease. It silently steals upon its victim like a thief at night and before he is really aware of its presence, great and damaging inroads are made upon his constitution. The veins surrounding the spermatic cord became enlarged and engaged with impure blood and diseased tissues. At times this condition may be accompanied with a dull, dragging pain in the small of the back, extending down into the parts, low spirits, weakness of body and brain, nervous debility, partial or complete loss of the sexual powers, and not infrequently decline of the general health. All these disagreeable symptoms soon disappear completely and forever under my Varicoccle cure, which is safe, painless and bloodless. Every clot of stagnant blood and every fiber of diseased tissue are driven from the infected parts, normal circulation is re-established throughout the pelvic regions, the weakened organs become strong again and sturdy manhood is restored.

REFLEX AND ASSOCIATE DISEASES

Are those which are present and act to aggravate and favor the progress of the main malady. I never dismiss a case until cured in every particular. If the case is complicated with Hyrocele (dropsy of the scrotum) Hemorrhoids, Fissure, Fistula, or any form of disease, I cure such additional complaints also, so that the cure

Reflex effects of all pelvic complaints are destructive to the tone of the Sympathetic Nerves. The debilitating effects on the general health and strength are demonstrated by such manhood sapping agents as Varicocele, Stricture, Blood Poison and Discharge-producing Virus. I care both causes and effects, and restore men so victimized by their own folly or by inheritance of Blood Taint.
